

Extended Limited Warranty APS YC500A Microinverter

The **APS YC500A** Microinverter (the “**Product**”) is designed to withstand normal operating conditions when used for its originally intended purpose in compliance with the APS User Manual supplied with the system. This APS Extended Limited Warranty (“**Extended Limited Warranty**” or “**ELW**”) provides for repair or replacement of Products shown to have defects in workmanship and materials (the “**Defective Product**”) during the fifteen (15) year period immediately following the conclusion of the APS Limited Warranty, which is in place for a ten (10) year period from the date of original purchase of the Product from APS (the “**Extended Warranty Period**”). During the Extended Warranty Period, this Extended Limited Warranty is transferable to subsequent owners of the Product, as long as the Product remains installed at the originally installed end user location.

If APS, through inspection, establishes the existence of a defect that is covered by this Extended Limited Warranty during the Extended Warranty Period, APS America Corp. (“**APS**”) will, at its sole and exclusive option;

1. repair the Defective Product, or
2. provide a credit towards purchase of a replacement Product from APS based on a pro-rata calculation of the ELW time period remaining for the Defective Product, as follows;

the number of months remaining under this ELW of the Defective Product divided by 300 = the % of the then current purchase price including shipping which will be credited to customer

If APS chooses to repair the Defective Product, APS may, at its option, use new and/or reconditioned parts, and/or parts of the original or an improved design. If APS repairs a Defective Product, the Extended Limited Warranty continues on the repaired Product for the remainder of the original Extended Warranty Period. This Extended Limited Warranty does not include labor costs related to un-installing the Defective Product or re-installing the repaired or replacement Product. The Extended Limited Warranty does not cover, and APS will not be responsible for, shipping damage or damage caused by mishandling by the freight carrier, and any such damage is the responsibility of the freight carrier.

To obtain service under this Extended Limited Warranty, the customer must first contact APS and comply with the APS Return Merchandise Authorization (“**RMA**”) procedures, which can be found at www.APSAmerica.com.

The Extended Limited Warranty does not apply to, and APS will not be responsible for, any defect in, or damage to, any Product that (1) has been disassembled or modified in any way, or (2) has been misused, neglected, tampered with, altered, or otherwise damaged, either internally or externally, or (3) has been improperly installed, operated, handled or used, including use under conditions for which the product was not designed, use in an unsuitable environment, or use in a manner contrary to the APS User Manual or applicable laws or regulations, or (4) has been subjected to fire, water, generalized corrosion, biological infestations, or input voltage that creates operating conditions beyond the maximum or minimum limits listed in the Product specifications, including high input voltage from generators or lightning strikes, or (5) has been subjected to incidental or consequential damage caused by defects of other components of the electrical system within which it is installed, or (6) has any alteration to, or removal of, the original identification markings (including trademark, model number, or serial number).

This Extended Limited Warranty does not cover costs related to the removal, installation or troubleshooting of the customer’s electrical systems.

This Extended Limited Warranty is a supplemental warranty offered by APS and is only applicable if the customer has paid for this Extended Limited Warranty and has proof of registration of the UID of the specific Product. After the warranty provided by APS during the initial Warranty Period, this Extended Limited Warranty is made expressly in lieu of all other warranties, express or implied, statutory or otherwise, including, without limitation, warranties of title, quality, merchantability, fitness for a particular purpose or non-infringement, or warranties as to the accuracy, sufficiency, or suitability of any technical or other information provided in manuals or other documentation. In no event will APS be liable for any special, direct, indirect, incidental or consequential damages, losses, costs, or expenses, however arising, whether in contract or tort, including without limitation any economic losses of any kind, any loss or damage to property, or any personal injury.

Some states do not allow limitations or exclusions on implied warranties or on the duration of an implied warranty or on the limitation or exclusion of certain damages, so the above limitation(s) or exclusion(s) may not apply. This Extended Limited Warranty gives the customer specific legal rights, and the customer may have other rights that may vary from state to state.
