Achieving over 19% efficiency, Solaria PowerXT solar modules are one of the highest power modules in the residential solar market. Compared to conventional modules, Solaria PowerXT modules have fewer gaps between the solar cells; this leads to higher power and superior aesthetics. Solaria PowerXT residential modules are manufactured with black backsheet and frames, giving them a striking appearance.

Developed in California, Solaria’s patented cell cutting and module assembly form high-density sub-strings, which are packed more efficiently and reduce inactive space between cells. By utilizing a ribbon-less interconnection process, cells are cut and overlaid without soldering, which creates highly reliable sub-string assemblies in a cost effective manner.

**Higher Efficiency, Higher Power**

Solaria PowerXT modules achieve over 19% efficiency; conventional modules achieve 15% – 17% efficiency. Solaria PowerXT modules are one of the highest power modules available.

**Lower System Costs**

Solaria PowerXT modules produce more power per square meter area. This reduces installation costs due to fewer balance of system components.

**Improved Shading Tolerance**

Sub-strings are interconnected in parallel, within each of the four module quadrants, which dramatically lowers the shading losses and boosts energy yield.

**Improved Aesthetics**

Compared to conventional modules, Solaria PowerXT modules have a more uniform appearance and superior aesthetics.

**Durability and Reliability**

Solder-less cell interconnections are highly reliable and designed to far exceed the industry leading 25 year warranty.

**About Solaria**

Established in 2000, The Solaria Corporation has created one of the industry’s most respected IP portfolios, with over 100 patents encompassing materials, processes, applications, products, manufacturing automation and equipment. Headquartered in Fremont, California, Solaria has developed a technology platform that unlocks the potential of solar energy allowing it to be ubiquitous and universally accessed.
